## About Metroplan and CARTS

Metroplan is a voluntary association of local governments that has operated by interlocal agreement since 1955. Originally formed as the Metropolitan Planning Commission of Pulaski County, Metroplan now has members in a five-county area.

Metroplan is the designated metropolitan planning organization (MPO) under Title 23 of the United States Code (see specifically Section 134 on Metropolitan Planning) and has been since 1972. As the MPO, Metroplan must adopt both a long range transportation plan, covering at least 20 years, and a short range implementation document called the Transportation Improvement Program (TIP) which selects projects from the long range plan to fund for construction. These documents are developed in a “comprehensive, cooperative and continuous” fashion and cover federal-aid surface transportation projects within the CARTS area. No federal transportation money can be spent on a project in the area unless that project is in the long range plan and the TIP.

### Little Rock - North Little Rock - Conway Metropolitan Statistical Area (MSA), with Central Arkansas Regional Transportation Study (CARTS) Boundary

Note: Grant County, the City of Sheridan and Hot Springs Village are non-voting members. Perry County is part of the six-county MSA, but not a Metroplan member.

## About this document

The publication presents a list of transportation projects within the CARTS area for which federal funds were obligated during the fiscal year 2011 (October 1, 2010 through September 30, 2011). When a project reaches a point that funds will need to be expended, a request is sent from the Arkansas State Highway and Transportation Department (AHTD) to the Federal Department of Transportation (DOT) to verify that there are funds available for reimbursement. This verification of fund availability “obligates” the money for use as soon as expenditures occur. Fund obligations are a measure of the progress being made on a project.

The publication of this list is in response to 23 USC 134(j)(7)(B), 23 USC 135(g)(4)(B), and 49 USC 5304(g)(4)(B) as revised by the SAFETEA-LU, that require “. . . an Annual Listing of projects, . . . for which Federal funds have been obligated in the preceding year shall be published or otherwise made available . . . “
